**Item 5                      Description of Governing Classification and Exceptions (change)**

The terms UFC, OPSL, STCC mean respectively:  
Uniform Freight Classification Tariff UFC 6000-Series  
Open and Prepay Station List Tariff OPSL 6000-Series.  
Standard Transportation Commodity Code Tariff STCC 6001-Series

Except as otherwise provided, this tariff is also governed by the following tariffs:

IAIS T 8000 Series - Switching  
IAIS T 3000 Series - General Commodities  
IAIS T 6100 Series - Rules  
IAIS T 9003 Series - Fuel Surcharge Tariff  
IAIS T 6004 Series - Demurrage

---

**Item 10                      Station Lists and Conditions**

This tariff is governed by the official list of Open and Prepay Station 6000-Series, STB OPSL 6000-Series, Station List Publishing Company, Agent, to the extent shown below:

**PREPAY REQUIREMENTS AND STATION CONDITIONS**

For additions and abandonments of stations, and except as otherwise shown herein, for prepay requirements, changes in names of stations, restrictions as to acceptance or delivery of freight and changes in station facilities. When a station is abandoned as of a date specified in this above-named tariff the rates from and to such station as published in this tariff are inapplicable on and after that date.

---

**Item 20                      Reference to Tariffs, Items, Notes, Rules, Etc.**

Where reference is made in this tariff to tariffs, items, notes, rules, etc., such references are continuous and include supplements to and successive issues of such tariffs, and reissues of such items, notes, rules, etc.

---

**Item 40                      Consecutive Numbers**

Where consecutive numbers are represented in this tariff by the first and last number connected by the word "to" or a hyphen they will be understood to include both of the numbers shown. If the first number only bears a reference mark, such reference mark also applies to the last number shown and to all numbers between the first and last numbers.

---

**Item 50                      Method of Canceling Items**

As this tariff is supplemented, numbered items with lettered suffixes cancel correspondingly numbered items in the original tariff or in a prior supplement. Letter suffixes will be used in alphabetical sequence starting with A. Example: Item 50-B cancels Item 50-A in a prior supplement which in turn canceled Item 50.

---

**Item 55                      Method of Denoting Reissued Matter in Supplements**

Matter brought forward without change from one supplement to another will be designated as "Reissued". To determine the original effective date consult the supplement in which the reissued matter first became effective.

---

**Item 65                      Demurrage**

This tariff is subject to all rules and charges published in STB IAIS 6004-Series Demurrage Tariff.

---

**Item 80**                      **Intermediate Application-Origin**

Subject to the provisions of Notes 1, 2 and 3 below, from any point of origin from which a commodity rate on a given article to a given destination and in a given route is not named in this tariff, which point is intermediate to a point from which a commodity rate on said article is published in this tariff via a route through the intermediate point over which such commodity rate applies to the same destination, apply from such intermediate point to such destination and via such route the commodity rate in this tariff on said article from the next beyond point from which a commodity rate is published herein on that article to the same destination via the same route.

Note1: If the intermediate point is located between two points from which commodity rates on the same article via the same route are published in this tariff, apply via that route from the intermediate point the rate from the next point in either direction which results in the higher charge. In applying this note, if there are two or more "next beyond" points due to branch or diverging lines, eliminate all such "next beyond" points except the point from which the lowest charge is applicable.

Note 2: If the class rate on the same article via the same route from the intermediate point produces a lower charge than would result from applying the commodity rate under this item, such commodity rate will not apply.

Note 3: If there is any other tariff a commodity rate on the same article from the intermediate origin point applicable over the same route to the same destination, the provisions of this item are not applicable from such intermediate origin points.

---

**Item 85**                      **Intermediate Application-Destination**

Subject to the provisions of Notes 1, 2 and 3 below, from any point of destination from which a commodity rate on a given article to a given origin and in a given route is not named in this tariff, which point is intermediate to a point from which a commodity rate on said article is published in this tariff via a route through the intermediate point over which such commodity rate applies to the same origin, apply from such intermediate point to such origin and via such route the commodity rate in this tariff on said article from the next beyond point from which a commodity rate is published herein on that article to the same origin via the same route.

Note1: If the intermediate point is located between two points from which commodity rates on the same article via the same route are published in this tariff, apply via that route from the intermediate point the rate from the next point in either direction which results in the higher charge. In applying this note, if there are two or more "next beyond" points due to branch or diverging lines, eliminate all such "next beyond" points except the point from which the lowest charge is applicable.

Note 2: If the class rate on the same article via the same route from the intermediate point produces a lower charge than would result from applying the commodity rate under this item, such commodity rate will not apply.

Note 3: If there is any other tariff a commodity rate on the same article from the intermediate origin point applicable over the same route to the same destination, the provisions of this item are not applicable from such intermediate origin points.

---

**Item 90**                      **Switching**

IAIS will not absorb any origin or destination switch charges. IAIS will absorb either one empty or one loaded intermediate switch charge at Chicago, IL up to \$136 per car.
