---

**Item 5 - Description of Governing Classification and Exceptions**

---

The term “Uniform Freight Classification,” when used herein means STB UFC 6000-Series.

The terms UFC, OPSL, STCC means respectively:

Uniform Freight Classification Tariff UFC 6000-Series

Open and Prepay Station List Tariff OPSL 6000-Series.

Standard Transportation Commodity Code Tariff STCC 6001-Series

Except as otherwise provided, this tariff is also governed by the following tariffs:

IAIS T 9003 Series Fuel Surcharge

IAIS T 6100 Series Rules Tariff

IAIS T 3000 Series General Commodities

IAIS T 6004 Series Demurrage Tariff

---

**Item 9 - Exemption from Regulation Box Car Traffic**

---

Pursuant to the orders of the Surface Transportation Board in Ex Parte 346 (Sub No. 8), Exemption from Regulation – Boxcar Traffic, 367 STB 424, 367 STB 747, rates, charges, rules and regulations in connection with the transportation of commodities in box cars, to the extent of the exemption from regulation in cited Commission orders, will have no application on commodities transported in box cars to that extent.

---

**Item 80 - Application of Switching Rates or Charges**

---

Switching rates or charges named herein will cover handling of cars loaded one way and an empty return, unless otherwise stated. If cars are loaded in both directions, regular rates or charges will be assessed for each loaded movement.

Rates apply on non-unit train traffic unless specifically noted herein. For rates on unit train shipments, please contact IAIS Marketing & Sales Department at [rates@iaisrr.com](mailto:rates@iaisrr.com).

IAIS does not provide Reciprocal Switching on Shipments of Containers or Trailers.

---

**Item 100 - Explanation of Terms**

---

Delivering Carrier: The railroad which causes delivery of consignment to connecting railroad.

Diversion / reconsignment:

- A. A change in the name of the consignee.
- B. A change in the name of the consignor.
- C. A change in the destination.
- D. A change in the route at the request of the consignor, consignee, or owner.

- E. Any other instruction given by consignor, consignee, or owner necessary to effect delivery and requiring in addition to or a change in billing, or an additional movement of the car, or both.

Industrial Switch: Intra-Terminal and Inter-Terminal switching service not immediately associated with road-haul service.

Interchange Track: Tracks on which cars are exchanged between connecting lines.

Intermediate Carrier: The railroad which handles the consignment between the delivering and receiving railroad.

Intermediate Switch: Where IAIS performs intermediate service between any two carriers.

Inter-Terminal Switch: Movement of a car from a location on one carrier to the track connection with a different carrier within the limits of the same station.

Intra-Plan Switch: An Intra-Terminal switch within the confines of the same plant.

Intra-Terminal Switch: Movement of a car from one location to another location on the same carrier within the limits of the same station when the consignee is located at that station or within its switching district.

Private Siding: A track of other than carrier ownership under the exclusive use or control of the owning party.

Receiving Carrier: The railroad that receives a consignment from a connecting railroad.

Reciprocal Switching: The movement of a loaded car from any elevator, warehouse, industry or place of business located on or adjoining any side track to any connecting railroad at a junction point when destined to points outside the switching limits, or the movement of a loaded car from any connecting railroad at a junction point to any elevator, warehouse, industry or place of business located on IAIS when originating at points outside of switching limits.

Line-Haul Traffic: Shipments to or from a point outside the limits of the switching district, except as otherwise provided.

Team Track: A track of carrier ownership provided for the use of the public to load or unload carload freight.

---

**Item 105 - Switching Charge on Loaded Cars Held for Instructions**

---

In the absence of specific provisions to the contrary, the following will apply:

- A. Except as provided in (B), when on shipper's order, loaded cars are removed from industry or team tracks and held by carrier awaiting instructions, the intra-terminal or inter-terminal switching charge, as the case may be, will be assessed for the movement; such charge will be in addition to all other charges applicable in accordance with lawful tariffs on file with the Surface Transportation Board and will not be absorbed.
- B. When loaded cars removed from industry or team tracks and held awaiting instructions are under continuous demurrage charges or rules in accordance with Tariff STB IAIS 6004-Series, no charge for such switching will be made.

---

**Item 125 - Switching Charges- Grain**

---

The intra-terminal or inter-terminal switching charges will be assessed for the movement; such charge will be in addition to all other charges applicable in accordance with lawful tariffs on file with the Surface Transportation Board and will not be absorbed.

---

**Item 130 - Date of Absorbed Switching Charges**

---

The absorbed switching charge applicable, whether absorbed in whole or in part, will be the charge in effect on the date of the actual physical interchange of the loaded car.

---

**Item 150 - Non-Absorption of Intermediate Carrier's Switch Charge**

---

Unless specifically indicated, no rates in this tariff absorb intermediate switch charges.

---

**Item 160 Dimensional Shipments**

---

For carloads exceeding Plate F equipment (as published in "The Official Railway Equipment Register") or 286,000 pounds in weight, including any other shipment which requires a special clearance of "Dimensional Movement File" please email [rates@iaisrr.com](mailto:rates@iaisrr.com) for pricing or call (800) 575-2709. Dimensional Shipments will not be handled by IAIS in reciprocal switching service.

---

**Item 170 - Hazardous Commodities**

---

Effective August 12, 2013, the switching rates listed under IAIS 8000 series are not applicable on shipments of hazardous materials (STCC 48/49 series). Any commodities that are classified as TIH and/or PIH are considered a closed customer; reciprocal switch does not apply. Please email [rates@iaisrr.com](mailto:rates@iaisrr.com) for pricing or call (800) 575-2709. IAIS will require a full Bill of Lading for such movements with IAIS shown in the routing.

---

**Item 270 – Standby Switch Engine Service**

---

Standby switch engine service will be provided upon reasonable advanced request, therefor to facilitate completion of multiple car shipments. To the extent that the service of an engine and crew are required beyond the normal time to spot or pull cars. IAIS will furnish an engine and crew, subject to availability, for an additional charge of \$400 per hour or fraction thereof, subject to a minimum charge of four (4) hours, and the maximum permissible on-duty time of twelve (12) hours permitted by law. The above rate does not include extra crew cost including but not limited to deadheading, lodging, food, and transportation. These charges will be billed in addition to the standby switch engine service rate.

Charges are not applicable on the following days:

- New Year's Day
- Good Friday
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day
- Friday following Thanksgiving Day
- Christmas Eve
- Christmas Day
- New Year's Eve

Please email [rates@iaisrr.com](mailto:rates@iaisrr.com) for pricing or call (800) 575-2709 for holiday rates for **Standby Switch Engine Service**.

---

\*\*The gross maximum weight on rail is 263,000 lbs. for railcars traveling to or from these Industries.

---

**SECTION 2**  
**INTRA-PLANT, INTRA-TERMINAL, INTER-TERMINAL, AND MISCELLANEOUS SWITCHING**  
**(See Item 100)**  
**(Rates in Dollars Per Car Except as Noted)**

---

---

**Item 2500 - Intra-Plant Switching Movements**

---

Movement of a car from one location to another location within the confines of the same industry. Except as otherwise provided, a charge of \$200 per car will be assessed for each intra-plant movement.

---

**Item 2550 - Intra-Terminal Switching Movements**

---

Movement of a car from one location to another location on the same carrier within the limits of the same station. Except as otherwise provided, a charge of \$515 per car will be assessed for each intra-terminal movement.

Blocks of 20 or more cars will be assessed at \$150 per car.

---

**Item 2600 - Inter-Terminal Switching Movements**

---

Movement of a car from a location on one carrier to the track connection with a different carrier within the limits of the same station when the consignee is located at that station or within its switching district. A charge of \$515 per car will be assessed for each inter-terminal movement, except as otherwise provided and in Chicago, IL.

---

**Item 2700 - Moving a car to execute your request**

---

The intra-terminal or inter-terminal switching charges will be assessed for the movement; such charge will be in addition to all other charges applicable in accordance with lawful tariffs on file with the Surface Transportation Board and will not be absorbed.

---
