Mileage Tariff IAIS 6000 B

Item 5 **Description of Governing Classification and Exceptions**

The terms UFC, OPSL and STCC mean respectively:
Uniform Freight Classification Tariff UFC 6000-Series.
Open and Prepay Station List Tariff OPSL 6000-Series.
Standard Transportation Commodity Code Tariff STCC 6001-Series
Directory of Hazardous Shipping Materials Descriptions Tariff BOE 6000-Series

Item 10 **Station Lists and Conditions**

This tariff is governed by the official list of Open and Prepay Station 6000-Series, STB OPSL 6000-Series, Station List Publishing Company, Agent, to the extent shown below:

PREPAY REQUIREMENTS AND STATION CONDITIONS

For additions and abandonments of stations, and except as otherwise shown herein, for prepay requirements, changes in names of stations, restrictions as to acceptance or delivery of freight and changes in station facilities. When a station is abandoned as of a date specified in this above named tariff the rates from and to such station as published in this tariff are inapplicable on and after that date.

Item 20 **Reference to Tariffs, Items, Notes, Rules, Etc.**

Where reference is made in this tariff to tariffs, items, notes, rules, such references are continuous and include supplements to and successive issues of such tariffs, and reissues of such items, notes, rules.

Item 40 **Consecutive Numbers**

Where consecutive numbers are represented in this tariff by the first and last number connected by the word "to" or a hyphen they will be understood to include both of the numbers shown. If the first number only bears a reference mark, such reference mark also applies to the last number shown and to all numbers between the first and last numbers.

Item 50 **Method of Canceling Item**

As this tariff is supplemented, numbered items with lettered suffixes cancel correspondingly numbered items in the original tariff or in a prior supplement. Letter suffixes will be used in alphabetical sequence starting with A. Example: Item 50-B cancels Item 50-A in a prior supplement which, in turn, canceled Item 50.

Item 55 **Method of Denoting Reissued Matter in Supplements**

Matter brought forward without change from one supplement to another will be designated as "Reissued". To determine the original effective date consult the supplement in which the reissued matter first became effective.

Item 60 **Application of Distances**

The distances in this Tariff are in miles and tenths of miles and are to be used as the official distances of the IAIS between the stations named, unless otherwise specifically provided in other IAIS Tariffs, Quotes or Contracts.

Mileage Tariff IAIS 6000 B

Item 65 Computation of Distances

Section 1 shows mileages applying between junction points and terminal points on the IAIS.

Section 2 shows mileages applying between IAIS local stations, geographically arranged, also between such stations and the nearest junction point or terminal point on either side of the local station.

To compute the distance between two junction or terminal points in Section 1, locate the station having alphabetical precedence in the headline and the other station along the sideline. The distance will be found where the headline and sideline intersect.

To compute the shortest distance between a junction point or terminal point in Section 1 and a local point in Section 2, ascertain the distance from the local station to the junction or terminal between which it is located in Section 2 and add thereto the distance beyond the respective junction or terminal point in Section 1.

Mileage Tariff IAIS 6000 B

SECTION 1

MILEAGE BETWEEN JUNCTION POINTS AND TERMINAL POINTS

Distances in this section are between junction points and terminal points on the IAIS and in all cases are based on short line distance via that line.

The headline station and sideline stations are in alphabetical order

The distance between any two stations is shown only once.

Mileage Tariff IAIS 6000 B
